

**适用范围 The scope of application:**

适用于各类船舶作夜间灯光信号，舰船编队航行信号是被之用。

Applied to the ships as lamp signal an nights and identification when the formation navigation of ships.

**产品特点 Products characteristic:**

1. 壳体采用优质铸铜或铸铝模压成型（根据客户需要来确定材质），铜质的型号为CXH10-1B；
2. 结构坚固，密封性能良好，能有效防止海水浸入；
3. 可按航行要求变换视角，调节光强；
4. 配置专用船舶信号灯泡。

1. The shell is made of good quality cast brass or cast aluminium (the material is according to the customer s requirement, when the material is brass, the type is CXH10-1 B).
2. The structure is firm, fine seal performance, and can prevent from the sea water immerging effectively.
3. It can change the visnalangle and adjust the light intensity accordingto the navigation requirement.
4. Equipped the special ship signal buib.

**采用标准 Adopt standard:**

1. 符合《1972年国际海上避碰规则》和《钢质海船入级规范》；
1. Conform to THE INTERNATIONAL REGULATIONS FOR PREVENTINGS COLLISION AT SEA,1972 and GRADE ENTRY NORMS FOR STEEL SHIPS.

**主要技术参数 Main technical parameter**

可见距离Visibility	2n.m
水平 / 垂直光角Horizontal optical angle	100 /30
灯座Lamp holder	E27
电压及功率Voltage/Power	220V/2x25W
材质Material	铜或铝
防护等级Protection class	Ip55
重量Weight	(铜)9.3kg、(铝)5.3kg
电缆外径Cable outside diameter	φ 10
