

# TZ3、TZ3-A投光灯 SPOT LIGHT

## 适用范围 The scope

适用于各种船舶夜航、救生、警戒等远距离照明和目标搜索。

Fit for remote illumination of ship night navigation, lifesaving, warning etc, and aim searching.

## 产品特点 Products characteristic

- 1、内部装有球面钢化玻璃反光镜和焦距调节装置，能够调节焦距，具有发光强度高、照明距离远的特点；
- 2、TZ3钢质外壳，底座上装有滚球板，并配有升降装置，可以手动控制灯体旋转180°，俯仰30°；
- 3、TZ3-A为不锈钢质外壳，底座内部装有微型电机，能够通过控制器操纵灯体旋转180°，俯仰30°。

1. Equipped the sphere toughened glass reflector and the device of focus adjustment which can adjust the focus up and down, front and black neaty, and has the functions such as high luminous intensity, far illumination distance.
2. TZ3 has steel shell, ball plate mounted on base, can control the light body by hand to rotate for 180° horizontally and pitching 30°.
3. TZ3-A has stainless steel shell, a micro motor is mounted on base, and can operate the light body to rotate for 180° horizontally and pitching 30° by controller.

## 规格 Specification
